1. (Name of Appropriator) (Address) (Town)
   County of __________________ State of Montana
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: water supply.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: June 20, 1962, interpolating.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 7 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:
   part-time for crop and garden

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
   water well, outside hydrant and pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater:
   Date: June 20, 1962.

8. The depth of water table: 15 feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:
   well 1, outside hydrant and pump.

10. The estimated amount of groundwater withdrawn each year: between 70,000 to 90,000 gallons.

11. The log of formations encountered in the drilling of each well if available: not known.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: well 1, outside hydrant and pump.

Address of Contractor:

Date Started: January 1970

Date Completed: January 1970

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable. Surface flow from spring is collected in four foot square collection box and then piped to points of use. Overflow is used for stock water adjacent to spring location.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use.

Inches used year around for domestic water supply.

Estimated from pipe size. An additional 5 inches overflow used from May through October for stock water, as available.

I have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. 

2. The beneficial use on which the claim is based, domestic and irrigation.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. March 1962.

4. The amount of groundwater claimed (in miner's inches or gallons per minute). 200.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Fields on townsite Seventy, and adjacent plots.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Drawdown and pipe line.

7. The date of commencement and completion of the construction of the well, or other works for withdrawal of groundwater. May 1962.

8. The depth of water table. Surface 15 ft.

9. So far as it may be available, the type, size, and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Hand pump, 12 horse power.

10. The estimated amount of groundwater withdrawn each year. 500,000.

11. The log of formations encountered in the drilling of each well if available. No log.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.
