Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable. A fresh water lake about 4 ft. deep. To use water it would have to be pumped out.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent, estimate approximate lengths of periods of use.

Indicate point of appropriation and place of use, if possible.

Signature of Owner: __________________________ Date: Dec. 30, 1963

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the work is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Northern Pacific Railway Co.
   (Name of Appropriator)

   County of
   Town
   State of Montana

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based:
   Domestic purposes

3. Date or approximate date of earliest beneficial use; and how continuous the use has been:
   1939 to present

4. The amount of groundwater claimed (in miner's inches or gallons per minute):
   10 gallons per minute

5. If used for irrigation, give the average and description of the lands to which this water has been applied, and name of the owner thereof:
   None

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
   Jet pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater:
   1958 completed

8. The depth of water table:
   45 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for withdrawal of groundwater:
   6 inch drilled well, 207 feet deep

10. The estimated amount of groundwater withdrawn each year:
    2,400,000 gallons

11. The log of formations encountered in the drilling of each well if available:
    None available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:
    None

Montana Water Resource Board
Helena, Montana

June 27, 1973

Thompson Falls
Montana

Dear Sir,

In June 1951, I purchased a parcel of land containing 20 acres with home, barn and other outbuildings also, a drilled water well near the house, in the NE ¼ of the SW ¼ of Sec. 23, T 26 N, R 33, W 2nd PM, west of NOxon, Mont.

I purchased the property from

Mark J. Bender of Thompson Falls, Mont.

Mr. Bender told me there were no records, and so

I met him at a Justice of the Peace office and

inquired as to whether she had not drilled a well.

She informed me that she did not have a log

of the water well. I pulled the well in 1952, and made what measurements I could.

I set an 8 in. casing and about 15 ft. cementing. Then put in a 6 in. well, making it about 50 ft.

The source of water was very good and the well drilled in 1947.

The best of my ability,

M. J. McElvain

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. [Name of Appropriator] of [Box 23], [Haroon, Montana]
   (Address) (Town)

   County of [Sanders] State of [Montana]

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   2. The beneficial use on which the claim is based—Domestic

   3. Date or approximate date of earliest beneficial use; and how continuous the use has been—approximately 1910

   4. The amount of groundwater claimed (in miner's inches or gallons per minute) 200 gal. per hour, approximately

   5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal—Electric pump

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater—approximately 1910

   8. The depth of water table—60 feet

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater—Rock well well

   10. The estimated amount of groundwater withdrawn each year—unknown

   11. The log of formations encountered in the drilling of each well if available—gravel

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record—none
