2. The beneficial use on which the claim is based: Livestock

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: 1920, continuous

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 10 gallons per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: not used for irrigation to date

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: 1920

8. The depth of water table: 14

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: four ft. square curbing, 16' depth

10. The estimated amount of groundwater withdrawn each year: 400,000 gallons

11. The log of formations encountered in the drilling of each well if available: none available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: none available

As the Administrator of the Groundwater Code for the State of Montana, please take note of the following special instructions, in order to properly protect your groundwater right.

**Special Instructions:**

Please provide, as indicated in red on the enclosed form, how the groundwater was developed, how the groundwater was developed, amount of water, amount of groundwater claimed (in gallons per minute or miner's inch) and estimated annual groundwater usage.

Thank you.

Date Completed: July 30, 1972

1. Describe means of obtaining groundwater (as by sub-irrigation, developed spring, drains, etc.)

2. Means of withdrawing water (gravity, pump, canal, etc.)

3. Depth of water table

4. Use of the water

5. Amount of groundwater claimed (in miner's inches or gallons per minute)

6. If used for irrigation, give number of acres and description of land

7. Estimate amount of water used each year

8. Months of year spring flows

Dena S. Ovegaard, of Laurel Ave., Plentywood
(Name of Appropiator) (Address) (Town)
County of Sheridan, State of Montana

I have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. Indicate point of appropriation and place of use, if possible. Each small square represents 1 acre.

2. The beneficial use on which the claim is based. For stock water and general farm use.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. October 1959 and as used every day.

4. The amount of groundwater claimed (in inches or gallons per minute). About 10 gallons.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Not Applicable.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Electricity.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. October 1959.

8. The depth of water table. About 190 feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. The well is 240 feet deep with a 4-inch casing and 10-inch grout, and a 4-inch cylinder.

10. The estimated amount of groundwater withdrawn each year. I don't know enough to take care of both.

11. The log of formations encountered in the drilling of each well, if available. Not available; the U.S. Forest Service destroyed all records up to and including 1959.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. No other information available.
