County of State of Montana have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. The beneficial use on which the claim is based. Household & stock water

2. Date or approximate date of earliest beneficial use; and how continuous the use has been. 1948 - spring continuous

3. The amount of groundwater claimed (in miner's inches or gallons per minute). 10 gals. per minute

4. If used for irrigation, give the acreage and description of the lands to which the water has been applied and name of the owner thereof. not applicable

5. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Electric pump

6. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Started & completed in the spring 1948.

7. The depth of water table 20 ft.

8. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. 50' deep with 6" casing.

9. The estimated amount of groundwater withdrawn each year. 540,000

10. The log of formations encountered in the drilling of each well if available. gravel - shale - sandstone

11. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. none known
