Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

Joe V. and A. Eileen Kiserman
Fairfield

1. (Name of Appraiser) of (Town)

County of__________________, State of__________________ have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The description of the water, or water, which the claim is based.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been.

4. The amount of groundwater claimed (in miner’s inches or gallons per minute).

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater.

8. The depth of water table.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater.

10. The estimated amount of groundwater withdrawn each year.

11. The log of formations encountered in the drilling of each well if available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Signature of Owners
Date

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; TriPLICATE to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appraiser.

Edward Fleischner and Caroline Fleischner
Fairfield

County of

State of

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Household, garden and lawn

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: 1948

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 5 gal. per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: electric pressure pump

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: 1948 commencement and completion

8. The depth of water table: 20 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: 65 feet deep 6 inch casing

10. The estimated amount of groundwater withdrawn each year: 109,500

11. The log of formations encountered in the drilling of each well if available: none

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: none

Signature of Owner

Date: December 30, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.
Notice of Completion of Groundwater Appropriation by Means of Well

(Under Chapter 237, Montana Session Laws, 1961)

Owner: Town of Fairfield, Address: Fairfield, Montana

Driller: Wm. M. Calvert, Address: Choteau, Montana

Date of Notice of Appropriation of Groundwater: April 21, 1962

Date well started: April 21, 1962

Date completed: May 1, 1962

Type of well: Bored

Equipment Used: Rotary (drill, rotary, other)

Water Use: Domestic

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock, sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which the water rises in the well.

(Name of Appropriator)

100 acres
(Plat showing point of appropriation and place of use, if possible. Each small square represents 10 acres.)

2. The beneficial use on which the claim is based. Household use, 1,500 gallons per day.

3. Date or approximate date of earliest beneficial use, and how continuous the use has been (Household use July 1, 1955, to June 1, 1964, June 1, 1955 to January 1, 1963. There has been none.)

4. The amount of groundwater claimed (in miner's inches or gallons per minute). Both wells, 100 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof (For use on 100 acres, not used for irrigation.)

6. The manner of withdrawing such water from the ground and the location of each well or other means of withdrawal. Withdraw water by means of electric submersible pumps.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Household well completed July 1, 1955. Feedlot well completed June 1, 1955.

8. The depth of water table. Household well is 15 feet, feedlot well is 25 feet.

9. So far as it may be available, the type, size and depth of each well, or the general specifications of any other works for the withdrawal of groundwater. The household well is dug and is a 15-foot deep open dug well. The feedlot well is bored and is a 25-foot deep hole with a 35-foot well screen. Both wells are equipped with submersible electric pumps. Feedlot well is drilled in a 25-foot casing.

10. The estimated amount of groundwater withdrawn each year. 2,000,000 gallons/year.

11. The log of formations encountered in the drilling of each well if available. Not applicable.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. Not applicable.

(Under Chapter 237, Montana Session Laws, 1961)

Name of Approprior: [Name]
Address: [Address]
Town: [Town]
County of: [County]
State of: Montana

I, [Name], of [Address], have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. [Diagram of well(s)]

2. The beneficial use on which the claim is based: Household, stock and lawn irrigation.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: Since 1963 and Continuous.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 20 gals. per minute. 800,000 gals. per year.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: [Details]

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Electric pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: 1963.

8. The depth of water table: Water table fluctuates - at low period about 15 feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: Drilled well with 6" casing.

10. The estimated amount of groundwater withdrawn each year: 200,000 gals.

11. The log of formations encountered in the drilling of each well if available (approximate):

   - 0' to 8' sand
   - 8' to 10' clay and gravel
   - 10' to 12' sand
   - 12' to 15' gravel

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

8. The depth of water table:  
   22 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:  
   Well drilled through casing
   Big steel weld

10. The estimated amount of groundwater withdrawn each year:  
   1 million 520,000 gal

11. The log of formations encountered in the drilling of each well if available:  
   None available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:  
   None known

Signature of Owner:  
C.L. Squires

Date: 12-30-1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.
Declarations of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. "David R. Harris", of 681 Fairfield,
   (Name of Appropriator) (Address) (Town)
   County of Latah, State of Montana

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   2. The beneficial use on which the claim is based - Home and livestock.

   3. Date or approximate date of earliest beneficial use; and how continuously the use has been. Well drilled 1938, and has been in continuous use.

   4. The amount of groundwater claimed (in miner's inches or gallons per minute), about 30 gallons per minute; drilled, cemented.

   5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. 4 acres, garden, lawn, and alfalfa, shrub and shade trees.

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal - Electric pump.

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater - June 1, 1938.

   8. The depth of water table. 28 feet.

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater - Good water, good charity.

   10. The estimated amount of groundwater withdrawn each year. 500,000 gallons a year.

   11. The log of formations encountered in the drilling of each well, if available. / Well.

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

In reply refer to: Engineering Bureau

Mr. Harold W. Genger
Fairfield
Montana 59436

Dear Mr. Genger:

This is in reference to the Notice of Completion of Groundwater Appropriation By Means of Well (GW-2) document number S10782, which you filed on December 20, 1971 at 8:30 a.m. (a copy of that form is enclosed.)

A close check of the location, reveals that the "range" as indicated on the enclosed form is possibly incorrect. The "range" is indicated as 3 East, which would put the well location in Cascade County instead of Teton County. Should not the proper location be "range" 3 West instead of "range" 3 East?

If the location is incorrect, we would suggest that you notify the Teton County Clerk (Mary M. Baker) and have the correction made.

If we can be of further assistance, please do not hesitate to contact us at any time.

Sincerely,

Orrin Ferris, Chief
Engineering Division
Water Resources Division

OFFICE OF STATE ENGINEER

Notice of Completion of Groundwater Appropriation Without Well
(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: No filing made

Owner: ___________________________ Address: ___________________________

Contractor (if any): ___________________________ Address of Contractor: ___________________________

Date Started: 1968 Date Completed: 1969

Describe means of obtaining groundwater without a well, i.e., by sub-irrigation and other natural processes. Include depth to water when applicable. Do not trench for piping site and bottom of soffice and piped water out to a trench on the surface.

Quantity of water developed and used—explain method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use. Measured water bycatching it in a sound measuring tube and quantity such spring yields 50 to 100 gallons per minute.

Signature of Owner: ___________________________ Date: December 31, 1963

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triple to the Montana Bureau of Mines and Geology and quadruplicate for the Appropriator.

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. Name of Appropriator: Louis V. Pearson
2. Beneficial use on which the claim is based: Domestic
3. Date or approximate date of earliest beneficial use, and how continuous the use has been:
   - Well No. 1 - 1949
   - Well No. 2 - 1918
   - Well No. 3 - 1915
4. The amount of groundwater claimed (in miner's inches or gallons per minute): All wells - 6 gals per min
5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of owner thereof:
6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
   - Cylinder pumps
7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater:
   - 1916 & 1949 as listed in Item No. 5
8. The depth of water table:
   - Wells Nos. 1 & 2 are 30' and well No. 3 30'
9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:
   - All wells are 65' deep, steel casings and 6' 6" GR
10. The estimated amount of groundwater withdrawn each year:
    - 500,000 gals for all wells
11. The log of formations encountered in the drilling of each well if available:
    - Shale and sandy loam
12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

1. **Rudolph Bensh**
   (Name of Approprietor)
   (Address)

County of **Teton**
State of **Montana**

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based is: **for household and livestock**.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: **for the past 30 years**.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) is: **480 gallons per hour**.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:
   - **Well No. 2, used for irrigating lawn, about 1 acre in size.**

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
   - By **Pump**.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: **About 1958**.

8. The depth of water table: **25 feet**.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:
   - **Well No. 1, 24x24 diameter, galvanized casing - about 80 ft.**
   - **Drilled well - sandpoint, 3-inch pipe, about 14 ft. deep.**

10. The estimated amount of groundwater withdrawn each year: **Well No. 1 - 800, regal/gpm**.

11. The log of formations encountered in the drilling of each well if available:
   - **Sandy loam**.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

   **Signature of Owner**: **Rudolph Bensh**
   **Date**: **December 30, 1963**

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

(Under Chapter 237, Montana Session Laws, 1961)

1. SPELLING NAME of (Address) (Town)

County of CASCADE State of MONTANA

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: well was dug about 1914 and water supply depends upon amount of snow or rain.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): ten (10) gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: completed in 1914 and improved in October, 1960.

8. The depth of water table: from sixteen (16) to twenty-four (24) feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: this well was dug by hand and rock cribbed to sandstone layer.

10. The estimated amount of groundwater withdrawn each year: variable.

11. The log of formations encountered in the drilling of each well if available: none.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.
