A STATE OF THE STA

?

August 24, 1972

Mr. Bradley J. DeZort Route 2 Fairfield, Montana 59436

Dear Mr. DEZort:

The enclosed GW-3 forms, Notice of Completion of Groundwater Appropriation Without Well, which were filed on June 6, 1972 in the Teton County Courthouse at Choteau, Montans (document numbers 311886 and 311989) are not the proper forms to use for filing on surface water.

The GW-3 form is intended for appropriating groundwater taken by developed springs, drains, and sub-irrigation. This does not include water taken from a creek, by damming the creek and allowing it to flow or be pumped out by ditches.

Enclosed are two forms entitled, Notice of Appropriation; to be used for appropriating "curface" water, and a pamphlet on Surface Water Rights.

Please note the areas indicated in red.

If we can be of further service, please feel free to contact us at any time.

Sincerely,

Ronald J. Suze Groundwater Rights Coordinator WATER RESOURCES DIVISION
