Dear Mr. Huldekoper:

This is in reference to the Notice of Completion of Groundwater Appropriation Without Well, (GW-3) document number 310754, which you filed on December 14, 1971 at 11:00 AM (See a copy of that form attached.).

Unfortunately, the form (GW-3) that you filed is not intended for this purpose. The GW-3 is intended for appropriating "groundwater" without a well as by springs, subirrigation, drains and other natural processes.

The water you are appropriating would be classified as "surface" water and should be filed on a form entitled Notice of Appropriation, which you will find enclosed for your own use. The Notice of Appropriation forms are not normally furnished by this office, but can be obtained from most office supply and printing offices.

If we can be of further assistance, please do not hesitate to call on us at any time.

Sincerely,

Orrin Ferris, Chief
Engineering Bureau
Water Resources Division
