Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

Alma L. Armstrong and Harriet L. Guthrie, of Choteau, State of Montana

appropriate groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Livestock water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: August, 1960; used yearly since.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 60 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Gasoline powered water pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: August, 1960; commenced and completed on the same date.

8. The depth of water table: 6 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: 2 inch water pipe sunk to a depth of 12 feet.

10. The estimated amount of groundwater withdrawn each year: 60,000 gallons.

11. The log of formations encountered in the drilling of each well if available: Not available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: None.

Signature of Owner: Harriet L. Guthrie
Date: January 17, 1962

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the School of Mines and Quadruplicate for the Appropriator.

Notice of Appropriation of Groundwater
(Under Chapter 237, Montana Session Laws, 1961)

1. Elva L. Armstrong and Bert Guthrie
   (Name of Appropriator) (Address) (Town)
   County of Teton, State of Montana, intend to appropriate groundwater in accordance with Chapter 237, Montana Session Laws of 1961.

2. The beneficial use to which water is to be applied is Livestock water.
   (describe lands to be benefited, if for irrigation)

3. The rate of use in gallons per minute or miner's inches of groundwater claimed: 200 gallons per minute.

4. The annual period (inclusive dates) of intended use: Daily.

6. The probable or intended date of commencement and completion of the well or wells:

7. The location, type, size and depth of well or wells contemplated: 3/8 in. Dug corrugated metal culvert, 6 feet deep.

8. The probable or estimated depth of the water table or artesian aquifer: 6 feet.

9. Name, address and license number of the driller engaged: Eldon Cook, Choteau, Mont.

10. Give such other similar information as may be useful in carrying out the policy of this act.

   As defined in the Code Sec. 1 (c) "Well" means any artificial opening or excavation in the ground, however made, by which groundwater can be obtained or through which it flows under natural pressures or is artificially withdrawn.

Three copies of this notice are to be filed with County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state. Otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Appropriator.

Signature of Appropriator: Alfred B. Guthrie

Date: Feb. 7, 1973

Locate well or other means of development as accurately as possible on the plat.

File No. 313496

Duplicate County: Teton

File No.: 313496

Filed for record: A.D. 1973, M.J. 20

Locate well or other means of development as accurately as possible on the plat: A.D. 1973, M.J. 20

(Under Chapter 237, Montana Session Laws, 1961)

Alva L. Armstrong and Harriet L. Guthrie

(Name of Appropriator) (Address) (Town)

County of Teton State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. Each small square represents 10 acres.

2. The beneficial use on which the claim is based: Livestock water and irrigation

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: [Date of earliest use unknown] used yearly since 1900.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 50 miner's inches

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner: 100 acres; SE 1/4 SE 1/4 Section 8, SE 1/4 Section 20, NE 1/4 Section 29; Alva L. Armstrong and Harriet L. Guthrie

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Gasoline powered water pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: Date of commencement and completion unknown

8. The depth of water table: 15 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: 4-foot diameter, 25 feet depth, flagstone

10. The estimated amount of groundwater withdrawn each year: 50 miner's inches used an average of two months each year.

11. The log of formations encountered in the drilling of each well if available: Not available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: None.

Declaration of Vested Groundwater Rights

(Under Chapter 237, Montana Session Laws, 1961)

1. **Louise W. Bouma**, of Choteau
   - **County**: Teton
   - **State**: Montana

   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   2. The beneficial use on which the claim is based: **Stock water** House use and irrigating garden and lawns and trees.

   3. Date or approximate date of earliest beneficial use; and how continuous the use has been: **Bought place March 2, 1940** and drilled a second well about 1952 use has been fairly continuous.

   4. The amount of groundwater claimed (in miner's inches or gallons per minute): about 20 gal. per minute from the two wells.

   5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: **Irrigated trees, lawns and garden about a total of five acres. Owner Name**.

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: **By electricity driven pressure pumps. A location is one well on each end of yard**.

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: **Date of completion of one well Feb 1941 and the other about July 1952**.

   8. The depth of water table: **about 14 ft. in the one and about 90 ft. in the other**.

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: **The shallow well is about 4 ft. square dug by hand and the other drilled six inch by 97 ft. deep**.

   10. The estimated amount of groundwater withdrawn each year: **unknown**.

   11. The log of formations encountered in the drilling of each well if available: **Not available**.

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: **None**.

OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

ALFRED J. TALIFSON, of
CHOTEAU

County of TETON, State of MONTANA
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Household, stock water, or lawn sprinkler.

3. Date or approximate date of earliest beneficial use and how continuous the use has been: 1914.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 10 gpm.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: None.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Electric jet pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: 1914.

8. The depth of water table: 10 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: One well on farm by west.

10. The estimated amount of groundwater withdrawn each year: 35,000 gallons.

11. The log of formations encountered in the drilling of each well if available: None.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: None.

Signature of Owner: ALFRED J. TALIFSON
Date: 7/24/1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Name of Appropriator: Harold J. Deffen of Chateau

2. The beneficial use on which the claim is based: Personal, Stock, and Irrigation

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: 1910

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 750

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: 75 acres, 10 acres.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: FLOWING, static

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: 1910

8. The depth of water table: 35' 75 50'

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: 10'

10. The estimated amount of groundwater withdrawn each year: 750

11. The log of formations encountered in the drilling of each well if available: No

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: B-3, 20-10

Four copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state; otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.
**WATER WELL LOG**

**Owner:** Harold Depner  
**Address:** Choteau

**Driller:** E. A. Alzheimar  
**Address:** Colville

**Date Started:** October 30, 1960  
**Date Completed:** November 1, 1960

**Location:** Sec. 2 T. 25N R. 4W 1/4 sec. SW1/4

**Type of well Drilled:**  
Pumping water level feet at gal. per min

**Equipment used:** Churn drill  
**Shut-in pressure, for flowing well:** 1200 lb./sq. in. on: flows 1500 gal. hr. 1½" opening (date)

**Water use:**  
Domestic [ ]  
Municipal [ ]  
Stock [ ]  
Irrigation [ ]

**Type of screen or perforations:** none

**Static Water level, for non-flowing well:** feet

**Perforated or Screened:**

STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

STATE ENGINEER

Howard E. Truchot & Francis L. Truchot, of Choteau, Montana
(Name of Appropriator)

Choteau
(Address)

Teton
(State of)

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based is livestock water.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been is December 1946. Continual use since.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) is 100 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof is applicable.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal is a driven rotary pump for withdrawal. The well site is in a field.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater is October 18, 1946.

8. The depth of water table is 4 feet below ground surface level.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater is a driven well 24 feet deep.

10. The estimated amount of groundwater withdrawn each year is 150,000 gallons per year.

11. The log of formations encountered in the drilling of each well if available is surface soil for approximately 4 feet, then gravel and sand the rest of the way.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record is applicable.

Signature of Owner

Date April 3, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the School of Mines and quadruplicate for the Appropriator.

OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

Howard E Truchot & Francis L Truchot, of Choteau, Montana. Choteau
(Name of Appropriator) (Address) (Town)

County of Teton State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. Name of Appropriator
2. The beneficial use on which the claim is based Domestic use and watering lawn and garden. Also for weed spraying.
3. Date or approximate date of earliest beneficial use; and how continuous the use has been. Earliest use: February 1944. Continual use since.
4. The amount of groundwater claimed (in miner's inches or gallons per minute) 40 gallons per minute.
5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Not applicable.
6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Motor driven pump for withdrawal. The well is under a house.
7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. The well started November 5 and finished November 6, 1944.
8. The depth of water table 7 feet below ground surface level.
9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. This well is a driven well. 1 1/2 inch pipe was used. The well is 26 feet deep.
10. The estimated amount of groundwater withdrawn each year. 300,000 gallons per year.
11. The log of formations encountered in the drilling of each well if available. Surface soil for approximately 3 feet, then gravel and sand the rest of the way.
12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. At present there are no county records on this well.

Signature of Owner: Howard E. Truchot
Date: April 3, 1963

County Clerk

Deputy
Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

Howard E. Truchot & Francis L. Truchot, or Chateau, Montana

County of Teton State of Montana

Have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Domestic and general farm use, one well for livestock water.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been until earliest use. Continued use since.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 40 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Motor driven pumps. Well A is located at a house and well B is for cattle.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: Well A drilled October 1945; well B was drilled about 1919.

8. The depth of water table: 15 feet below ground surface level.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: 7 inch steel casing. Well depth is 15 feet.

10. The estimated amount of groundwater withdrawn each year: 600,000 gallons per year.

11. The log of formations encountered in the drilling of each well if available: Gravelly loam soil for 15 feet then gravel and sand the rest of the way.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: There are at present no county records on these wells.

Signature of Owner: Francis L. Truchot

Date: April 3, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Notice of Completion of Groundwater Appropriation Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: 1926 and prior

Owner: C.K. Malone
Address: Choteau, Mont.

Contractor (if any)
Address of Contractor

Date Started: 1926
Date Completed: 1926

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable:

- Open drain ditches

- Plant life of growing crops on sub-irrigation

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use:

- Seven months of irrigating and twelve months for stock and domestic purposes

Signature of Owner: [Signature]
Date: December 27th, 1963

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology and quadruplicate for the Appropriator.
NOTICE OF COMPLETION OF GROUNDWATER APPROPRIATION
WITHOUT WELL

Dated this 28th day of December, 1963

STATE ENGINEER

FILE NO. ————

NOTICE OF COMPLETION

In the eighteen hundred nineties, what is known as the Burton Bench in Teton County, Montana, was settled and ditches were constructed to be used to irrigate the land with waters of the Teton River. Because of the gravelly texture of the soil, soon large areas in the north and east end of this bench began to develop sub-irrigation.

As the years went by, this sub-irrigation made much of the land too wet for farming, but, with supplemental surface irrigation, this land proved to be good hay land, after the alkali was washed out. However, section 17-25n-4w became very swampy, so large areas were too wet for haying in summer and were covered by large ice-fields in winter.

In 1926, the undersigned, C.E. Malone, then owner of this and adjoining land, dug three open drain ditches, west to east, in this section 17 to remove the excess water. Then he constructed a system of irrigation ditches to use this recovered ground-water (as shown on the attached map). He used this recovered ground water, sometimes amounting to 300 miners inches, continuously until he transferred, with waters appertaining thereto, to members of his family, who continue to use this recovered ground water. However the greatest use of ground water, in this area, is that immeasurable amount recovered from the ground by the growing hay crops each year, on all the land on the attached maps, designated as "sub-irrigated.

[Stamp]
Mrs. Elizabeth McLean, of Collins Route 9, Dutton

County of Teton, State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based (house and garden) and how

3. Date or approximate date of earliest beneficial use; and how continuous the use has been 1913 through 1965

4. The amount of groundwater claimed (in miner's inches or gallons per minute)

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

6. The means of withdrawing such water from the ground and the location of each well, or other means of withdrawal

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater 1912 and 1913

8. The depth of water table

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater dwelling-house well 185 feet

10. The estimated amount of groundwater withdrawn each year

11. The log of formations encountered in the drilling of each well if available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

Signature of Owner: Mrs. Elizabeth McLean
Date: Dec 30, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Appropriator.
September 11, 1975

ALLEN CHRONISTER
Attorney for the Dept. of Natural Resources
and Conservation
Water Division
32 South Ewing
Helena, Montana
59601

Dear Allen:

Enclosed you will find a duplicate original of the Affidavit of Elizabeth M. Hawley correcting her mother's declaration of vested groundwater rights on December 30, 1963.

Thank you for suggesting this procedure in our telephone conversation of September 10, 1975.

Yours Truly,

LARRY JUELFs

LJ: cj
Encls.

5. The Declaration is incorrect in stating that the well in
STATE OF MONTANA

County of Teton

Comes now ELIZABETH M. HAWLEY and, being first duly sworn on oath, states:

1. That she is the daughter of Mrs. Elizabeth McLean who filed a Declaration of Vested Groundwater Rights on December 30, 1963, in Township 25 North, Range 4 West, M.P.M., Teton County, with the Teton County Clerk and Recorder.

2. That she acquired the land upon which that groundwater right was and is attached by a termination of her mother's estate held in Joint Tenancy, recorded in the Office of the Teton County Clerk and Recorder on November 9, 1973, following her mother's death and thus acquired that groundwater right.

Said Termination is recorded in said Office as document number 316577 in Book/Film No. BR 18R of Orders and Decrees at page 419.

3. On the date of the Declaration, Mrs. Elizabeth McLean was eighty years of age and had poor hearing.

4. She is very familiar with her mother's handwriting and errors are contained in the said Declaration in handwriting which was not her mother's as follows:

a. The Declaration states that "the beneficial use on which the claim is based is house and garden and lawn" although actual use was in connection with livestock, domestic use for two families, agricultural plants, and watering trees, flowers, shrubs, and lawn grass; and

b. The Declaration states that the estimated amount of groundwater withdrawn each year is 150,000 gallons although the actual amount of groundwater withdrawn yearly prior to the Declaration approximated 2,394,000 gallons.

5. The Declaration is incorrect in stating that the well in
question is 185 feet deep. A well 85 feet deep was sunk in 1913 and, when it became useless, a second well 100 feet deep was sunk near the 85 feet deep well in 1944 by well diggers Ferguson and Hayes. It is the 100 feet deep well which is referred to in the Declaration.

6. She is familiar with the use of water prior to the date of the Declaration at the location set forth in the Declaration by reason of many years residence at that location and by reason of her close relationship with her mother.

ELIZABETH M. HAWLEY

Subscribed and sworn to before me this 10th day of September, 1975.

Notary Public for the State of Montana.
