STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

STATE ENGINEER

1. Hasquet Ventures, Inc., a corporation, of Box 292, Shelby.
   (Name of Appropriator) (Address) (Town)
   County of Toole State of Montana
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   2. The beneficial use on which the claim is based. Stock watering.

   3. Date or approximate date of earliest beneficial use; and how continuous the use has been. 1903, continuously.

   4. The amount of groundwater claimed (in miner's inches or gallons per minute) one-half gallon per minute.

   5. If used for irrigation, give the acreage and description of the land to which water has been applied and name of the owner thereof. Not applicable.

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Pump, and engine. NE 1/4 SE 15, Sec. 15, Township 32 North, Range 3 West, Toole County.

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Unknown.

   8. The depth of water table. Approximately 18 feet.

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Hand dug, 24 feet deep.

   10. The estimated amount of groundwater withdrawn each year. 150,000 gallons per year.

   11. The log of formations encountered in the drilling of each well if available. Unknown.

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. None.

   Hasquet Ventures, Inc. by: William E. Reese, Manager.

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

Notice of Completion of Groundwater Appropriation Without Well

Date of Appropriation of Groundwater: 1963

Owner: T. E. Clark
Address: Shelby, Mont.

Contractor (if any):

Address of Contractor:

Date Started: 1963.6.1964 Date Completed: 1964.6.1

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable.

No 1 filled by run off higher ground
No 2 filled by run off higher ground
No 3 filled by run off higher ground
No 4 filled by run off higher ground

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent estimate approximate lengths of periods of use:

No 1 used approx 3 acres 1/2 day at dam
No 2 - No 3 and No 4 used year around when water is available for stock

Signature of Owner: T. E. Clark
Date: Dec. 27, 1964

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.

EXTRACT FROM HOUSE BILL, NO. 25.

Section 1. Hereafter a cubic foot of water (7.49 gallons) per second of time shall be the legal standard for the measurement of water in this State.

Section 2. Where water rights expressed in miners' inches have been granted, one hundred miners' inches shall be considered equivalent to a flow of two and one-half cubic feet (18.7 gallons) per second; two hundred miners' inches shall be considered equivalent to a flow of five cubic feet (37.4 gallons) per second, and this proportion shall be observed in determining the equivalent flow represented by any number of miners' inches. [Approved March 3, 1888]

STATE OF MONTANA,

County of Teton,

Ludwig Lindquist,

being duly sworn, deposes and says that he is of lawful age and the locator and appropriator of the waters and water right in the foregoing notice of water appropriation named; that he has read the foregoing notice of appropriation and knows the contents thereof; that the matters and things contained in said notice are true.

Ludwig Lindquist

Subscribed and sworn to before me this 30th day of April, A.D. 1896.

Notary Public in and for Teton County, Montana.
NOTICE OF WATER RIGHT.

STATE OF MONTANA, ss.

County of Teton,

To All Whom These Presents May Concern,

BE IT KNOWN, THAT...

Ludwig Lindquist

of the county of Teton and State of Montana, do hereby declare and give notice to all persons concerned, that...

have appropriated...

cubic feet of the waters of...

in the county of Teton and State of Montana, for useful and beneficial purposes:

And...

further declare as follows:

First: That...

cubic feet of the waters of said...

according to the standard measurement of water prescribed by House Bill No. 29, Session laws, Sixth Legislative assembly, of Montana.

Second. That the purpose for which the water is appropriated is for...

purposes, and especially for...

Third. That said waters are diverted from said stream by means of a...

ditch tripping said stream upon its...

bank at a point thereon...

Fourth. That the appropriation... made upon the...

day of...

Fifth. That the name of the appropriator of said water...

And...

further claim the right to change the place of diversion of said water at any time, and extend the ditches, flumes, pipes, aqueducts, by which said diversion is made from time to time, to any place other than where first used, and to use the waters for other useful and beneficial purposes than that for which it was first appropriated.

And I also claim all the rights of way for ditches, flumes, aqueducts and reservoirs, dikes and canals, over and across the lands through which the same are constructed, and the right to enlarge and alter the same from time to time, and also all rights, easements, privileges and appurtenances thereto belonging or granted under and by virtue of all laws, both State and National.

Together with all and singular, the hereditaments and appurtenances thereof belonging or appurtening, or to accrue to the same.

In Witness Whereof — I... have hereunto set...

hand and seal, this...

day of...

C. E. Trescott, County Printer.
STATE OF MONTANA,

County of: [illegible]

Robert C. Oderwald having first been duly sworn, deposes and says that he is of lawful age and is the appropriator and claimant of the order and water right mentioned in the foregoing notice of completion of groundwater appropriation without well and the person whose name subscribed thereto, as the appropriator and claimant, that he know the contents of said foregoing notice and that the matters and things therein stated are true.

OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

CLARE J. ROBERTSON and VERNON H. ROBERTSON

County of Toole, State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

Dug Wells

2. The beneficial use on which the claim is based: domestic, stock water, irrigation of yard & garden.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. No. 1 believed 1945, No. 2 believed 1945. Wells dug when appropriately acquired land. Believed continuous use.

4. The amount of groundwater claimed (in miner's inches or gallons per minute). No. 1 10 gallons per minute, No. 2 10 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Not applicable.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. No. 1 bricked up, and 1½ inch pipe, powered by electric pump; same for No. 2. No. 1 located NE 1/4 of Lot 1, No. 2 located NE 1/4 of Lot 2, in Section 36-31N-1W.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Believed about 1945.

8. The depth of water table. No. 1, six feet; No. 2, six feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Total depth for each well sixteen feet; bricked up and water string is 1½ inch pipe.

10. The estimated amount of groundwater withdrawn each year. No. 1 5,000,000 gallons; No. 2 5,000,000 gallons.

11. The log of formations encountered in the drilling of each well if available. Not available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. None.

Signature of Owner: Date 31 December 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and - and Quadruplicate for the Appropriator.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Odin V. Knutsen
   (Name of Appropriator) of Devona
   (Address) (Town)
   County of.
   State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based. Stock water and drinking water.

3. Date or approximate date of earliest beneficial use and how continuous the use has been. This well was built in 1925 approximately and used continuously since then. It was rebuilt in 1951 and still in use.

4. The amount of groundwater claimed (in miner's inches or gallons per minute). 4 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Not applicable.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal pumped with a gasoline engine. Location is by the SW 1/4 of Sec. 21, T 32 N, R 1 E.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Latest work done in April 1951.

8. The depth of water table. 10 to 20 feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. Well is 20 feet deep and made of galvanized well casing and extends 3 feet above ground level.

10. The estimated amount of groundwater withdrawn each year. 300,000 gallons.

11. The log of formations encountered in the drilling of each well if available. None available. Can't below 10 feet.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. None.

Signature of Owner: Odin V. Knutsen
Date: December 4, 1963

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Lloyd Knutson
   (Name of Appropriator)
   (Address)
   County of Tule
   State of Montana
   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Stock Water and Drinking Water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been from 1912 until 1960, and has been used continuously since.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 5 gallons per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: Not applicable

6. The means of withdrawing such water from the ground and the point of entry and place of use, if possible: Withdrawn with a well built with a galvanized engine with a concrete casing of 15, 30, and 45 feet each.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: Sept. 19 to Sept. 22, 1960

8. The depth of water table: 20 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: The well is 10 feet deep and made of galvanized iron casing, 15 feet in diameter. It is concreted

10. The estimated amount of groundwater withdrawn each year: 145,000 gallons

11. The log of formations encountered in the drilling of each well if available: Not available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: None available

Signature of Owner: Lloyd Knutson

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

STATE ENGINEER

DARWIN SNUFFER, of
Galata,

County of Toole, State of Montana,
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. The beneficial use on which the claim is based: irrigation, agricultural, stock water, public hauling, community water supply.

2. Date or approximate date of earliest beneficial use; and how continuous the use has been: 1953 - continuous.

3. The amount of groundwater claimed (in miner's inches or gallons per minute): 100 gallons per minute.

4. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.

5. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: 1 1/2 hp. electric pump - SE 3/2 SE 1 of Section 2, T. 32 N. R. 2 E.

6. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: 1953.

7. The depth of water table: 6 feet of water.

8. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: 12" x 16' wide x 14' deep; cement block construction.

9. The estimated amount of groundwater withdrawn each year: 25 million gallons per year.

10. The log of formations encountered in the drilling of each well if available: unknown.

11. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: None.

JEANETTE E. MCDONALD, Ch. Recorder

By
Gui 2 0 1
Deputy.
February 1, 1973

Mr. Robert G. Oedewaldt
825 6th Street South
Box 877
Shelby, MT 59474

Dear Mr. Oedewaldt:

This is in response to the enclosed copy of the GW-3 form, Notice of Completion of Groundwater Appropriation Without Well, that was filed in the Toole County Courthouse at Shelby, Montana on November 20, 1972 at 4:35 p.m., document number 264705.

Unfortunately, the GW-3 form which you have filed is intended for the purpose of appropriating groundwater taken by developed springs, drains, and sub-irrigation. (This does not include "surface water run-off" from coulees.) "Surface run-off" from a coulee would be classified within the jurisdiction of surface water laws, and not groundwater laws.

Enclosed is a "sample" form entitled Notice of Appropriation to be used for appropriating surface water, and a pamphlet on Surface Water Rights. Please note the areas underlined in red. (The Notice of Appropriation form should be recorded and filed in the local county clerk and recorders office in which the water is being diverted and used. Additional copies of the form can be purchased at most major office supply stores in Montana.)

Also enclosed is a two page report on six sections of Montana's surface water laws, dealing specifically with appropriating unadjudicated surface waters for your own information. (There are different procedures to follow in appropriating surface water from adjudicated or court decreed streams.)
If we can be of further assistance in this matter, please feel free to contact us at any time.

Sincerely,

Ronald J. Guse
Groundwater Rights Coordinator

Declaration of Vested Groundwater Rights

(Under Chapter 237, Montana Session Laws, 1961)

Charlie Lincoln, of Shelty

County of Glacier

State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based.

   General ranch use

3. Date or approximate date of earliest beneficial use; and how continuing the use has been.

   These two wells have been used steadily since about 1934

4. The amount of groundwater claimed (in miner’s inches or gallons per minute).

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.

   Wells for double pumps.

   Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater.

   Approximately 1934

8. The depth of water table.

   About 12 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater.

   Wells 8” x 8” 3’ ft.

10. The estimated amount of groundwater withdrawn each year.

    5,000 from each well

11. The log of formations encountered in the drilling of each well if available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

      Location adjacent to well
      Owners: G. L. & Janice Bourne

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. Gasoline and/or electric pump. Location: between garden & barn.

      Well: Sec. 20, T. 21 N., R. 2 W.

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. May 12, 1961 commencement - May 12, 1961 completion.

   8. The depth of water table:

      10'

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. One well only; 12" pipe driven sandpoint; total depth 120'

   10. The estimated amount of groundwater withdrawn each year: 500,000 gallons

   11. The log of formations encountered in the drilling of each well if available: top soil, fine sand, gravel

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

   Signature of Owner: Janice Bourne

   Date: 12/31/63

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology; and Quadruplicate for the Appropriator.
STATE OF MONTANA
County of Toole, 189
I hereby certify that the within instru-
ment was filed for record at my office on
Dec. 19, 1938, at 9:15 a.m., and recorded as Doc. No. 67
of Deeds, on Page 121
Records of Town of Shelby, Montana.

JEANNETTE E. MCDONALD, Co. Recorder

Shelby, Mont.
Notice of Completion of Groundwater Appropriation by Means of Well
(Under Chapter 237, Montana Session Laws, 1961)

Box 743

Owner: City of Shelby
Address: Shelby, Montana

Driller: Layne-Minnesota
Address: Minneapolis, Minn.

Date of Notice of Appropriation of Groundwater: 1962
Date Well Started: 1962
Date Completed: 1962

Type of Well: Gravel Well
Equipment Used: Caisson
(Churn, drill, rotary or drilled)

Water Use: Domestic □ Municipal □ Other □ Irrigation □
Industrial □ Drainage □ Stock □

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which water rises in the well.

Static Water Level for non-flowing Well: 19'. 11' feet.
Shut-in Pressure for Flowing Well: Not known.
Pumping Water Level: 34' feet at 350 gal. per minute.
Discharge in gal. per min. of flowing well: Not known.

How Tested: Turbine Pump
Length of Test: 8 hrs.

Remarks: (Gravel packing, cementing, packers, type of shutoff, location of place of use of groundwater if not at well, and any other similar pertinent information, including number of acres irrigated, if used for irrigation.)

Double gravel wall - 52" dia. to 24" screen, 38" casing cemented in 60" hole, 1½" PVC treatment coil around screen.
