I [Name of Appropriator], of [Address] (Town), have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1. [Name of Appropriator]
2. The beneficial use on which the claim is based
   Horse use and cattle
3. Date or approximate date of earliest beneficial use; and how continuous the use has been
   1912, Horse use
4. The amount of groundwater claimed (in miner's inches or gallons per minute) 80 gals. per minute
5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof
6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal
   Electric sub pump
7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater
   1912
8. The depth of water table
   20 feet
9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater
   Diameter with point of water intake, location and length of lateral perforation
10. The estimated amount of groundwater withdrawn each year
    700,000 gals.
11. The log of formations encountered in the drilling of each well if available
12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

Signature of Owner: [Signature]
Date: Jan 13, 1962

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. Lloyd A. Torgerson, of Ethridge,
County of Toole, State of Montana,
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based is water for livestock.

3. Date or approximate date of earliest beneficial use: 1913, continuous use from that time and still in use.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 25 gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: Not used for irrigation.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Natural flow from springs.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: No wells or other works for withdrawal of groundwater.

8. The depth of water table: surface.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: Dam was built to hold water.

10. The estimated amount of groundwater withdrawn each year: 300,000 gallons.

11. The log of formations encountered in the drilling of each well if available: No wells.

12. **Declaration of Vested Groundwater Rights**

I, of Fox 665, of Toole County, State of Montana, represent that I have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

**WELL:**

2. The beneficial use on which the claim is based... *stock watering and garden irrigating*

3. Date or approximate date of earliest beneficial use; and how continuously the use has been *1950 - month at a time, 3 or 4 months out of a year*

4. The amount of groundwater claimed (in miner's inches or gallons per minute)... *3 to 4 gallon per minute*

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof... *1 acre in Sec. 12, T. 33 N., R. 2W. Indicate point of appropriation if possible. Each small square represents 10 acre.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal...

   - **Windmill or motor pump**

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater... *1960*

8. The depth of water table... *4 feet*

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater... *12 feet in depth. Well is curbed with 6 foot culvert*

10. The estimated amount of groundwater withdrawn each year... *180,000 gallon a year*

11. The log of formations encountered in the drilling of each well if available... *not available - dug well*

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record... *none*
