Ms. Mildred Beaudoin
Route South
Shelby, Montana 59474

Dear Ms. Beaudoin:

This is in reference to the enclosed GW-1 form, Notice of Appropriation of Groundwater, that was filed in the Toole County Courthouse at Shelby, Montana on June 20, 1972 (document number 263860).

The Notice of Appropriation of Groundwater form is simply a "notice" form, which is filed in advance of the commencing of the well construction. Upon well completion the GW-2 form, Notice of Completion of Groundwater Appropriation, by Names of Well should be filed.

The GW-1 form that you have filed does not legally give you or protect your groundwater right. The Groundwater Code specifically states that, "Until a notice of completion (GW-2 in this case) is filed with respect to any use of groundwater instituted after January 1, 1962, no right to that use of water shall be recognized."

The well driller (Mr. Warren Atkima) should have provided you with a completed GW-2 form. If not, we have enclosed one set (5 sheets to a set) of the GW-2 form in order that you may file your groundwater right properly. Complete the form and file it at the courthouse.

Also enclosed is a pamphlet entitled, Appropriation and Regulation of Ground Water. Please pay special attention to the areas underlined in red in the first three and one-half pages.

If we can be of further assistance, please feel free to call on us at any time.

Sincerely,

Ronald J. Guise
