   have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

   2. The beneficial use on which the claim is based: Stock springs.

   3. Date or approximate date of earliest beneficial use; and how continuous the use has been: 1920 - continuous.

   4. The amount of groundwater claimed (in miner's inches or gallons per minute): 20 gallons per minute.

   5. If used for irrigation, give the average and description of the land to which water has been applied and name of the owner thereof.

   6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Natural, flowing springs.

   7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: Prior to 1920.

   8. The depth of water table: Springs flow to surface.

   9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: Springs.

   10. The estimated amount of groundwater withdrawn each year: 20 gallons per minute, year around.

   11. The log of formations encountered in the drilling of each well if available.

   12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.
