#### STATE OF MONTANA ADMINISTRATOR OF GROUNDWATER CODE MONTANA WATER RESOURCES BOARD

JUL 1 0 197%

NOTICE OF APPROPRIATION OF GROUNDWATERTANA DEPARTMENT OF NATURAL (Under Chapter 237, Montana Session Laws, 1961, as amended): OURCES AND CONSERVATION After filing a notice of appropriation, in order to acquire a right based thereon, the person must, within ninety

(90) days, commence actual excavation and diligently prosecute construction of a well and, upon its completion, file a notice of completion with the County Clerk of the county in which the appropriation is located.

	e answer all questions. If not applicable, so state, otherwise the form may be returned.
	I, FRED BEAUCHOT , of HARLOWTON, MONTANA (Name of Appropriator) (Address) (Town)
	County of MHEATLAND State of MONTANA intend to appropriate goundwater in accordance with Chapter 237, Montana Session Laws of 1961.
	The beneficial use to which water is to be applied is HOUSEHOLD & LAWN PURPOSES
	(describe lands to be benefited, if for irrigation)
	The rate of use in gallons per minute or miner's inches of groundwater claimed
	The estimated amount of groundwater to be used annually
•	The annual period (inclusive dates) of intended use
	The probable or intended date of first beneficial use
•	The probable or intended date of commencement and completion of the well* or wells*
	The location, type, size and depth of well or wells contemplated 18. WELL = SAND=POINT.
	The probable or estimated depth of the water-table or artesian aquifer
ì.	The probable or estimated depth of the water-table or artesian aquifer
	The probable or estimated depth of the water-table or artesian aquifer
3.	The probable or estimated depth of the water-table or artesian aquifer
3.	The probable or estimated depth of the water-table or artesian aquifer  The name, address, and license number of the driller engaged  WELL DRIVEN BY SELF IN 1941
).	The probable or estimated depth of the water-table or artesian aquifer  The name, address, and license number of the driller engaged  WELL DRIVEN BY SELF IN 1941  Give such other similar information as may be useful in carrying out the policy of this act
).	The probable or estimated depth of the water-table or artesian aquifer  The name, address, and license number of the driller engaged  WELL DRIVEN BY SELF IN 1941

The deficient of the well of a depth of each well or the general specifications of any other advance.  The deficient of the well of a depth of each well or the general specifications of any other advance.  The deficient of the well of the well, wells, or other works for without the specifications of any other advances.
7. The date of commencement and condrawal of groundwater	location of each well or other means of withdrayal many and second middle of the construction of the well, wells, or other works for without applicable type, size and depth of each well or the general specifications of any other advater.  All all all a septimized in the drilling of each well if available.
7. The date of commencement and condrawal of groundwater	location of each well or other means of withdrayal many and second many other works for withmost applicable  20 ff  type, size and depth of each well or the general specifications of any other advater.  As a supplicable to a supplicable with the second water withdrawn each year.  In the drilling of each well if available.
7. The date of commencement and condrawal of groundwater	bounded and withdrawal and construction of the well, wells, or other works for withdrawal applicable type, size and depth of each well or the general specifications of any other advater.  The definition of each well if available.  In the drilling of each well if available.  The nature as may be useful in carrying out the policy of this act, including county record.
7. The date of commencement and condrawal of groundwater	bounded and well or other means of withdrayal completion of the construction of the well, wells, or other works for withdrawater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advaters.
7. The date of commencement and condrawal of groundwater	bounded and well or other means of withdrayal completion of the construction of the well, wells, or other works for withdrawater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well if available.  The size and depth of each well if available.  The results of the size and depth of each well if available.  The results of the size and depth of each well if available.  The results of the size and depth of each well in carrying out the policy of this act, including county record.
7. The date of commencement and condrawal of groundwater	bounded and well or other means of withdrayal completion of the construction of the well, wells, or other works for withdrawater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well or the general specifications of any other advater.  The size and depth of each well if available.  The size and depth of each well if available.  The results of the size and depth of each well if available.  The results of the size and depth of each well if available.  The results of the size and depth of each well in carrying out the policy of this act, including county record.
7. The date of commencement and condrawal of groundwater	location of each well or other means of withdrayal.  Impletion of the construction of the well, wells, or other works for withdrawn each well or the general specifications of any other advater.  In the drilling of each well if available.  In nature as may be useful in carrying out the policy of this act, including county record.  Signature of Owner.  Date.  Date.  J. 1963
7. The date of commencement and condrawal of groundwater	bompletion of the construction of the well, wells, or other works for withmost applicable  20 ff  type, size and depth of each well or the general specifications of any other advater.  20 ff  type and depth of each well or the general specifications of any other advater.  21 for a specific depth of each well if available.  22 from the drilling of each well if available.  23 for available.  24 for available.  25 for available.  26 for available.  27 for available.  28 for withdrawn each year.  29 for available.  20 for available.  20 for available.  21 for available.  21 for available.  22 for available.  23 for available.  24 for available.  25 for available.  26 for available.  27 for available.  28 for withdrawn each year.  29 for available.  20 for available.  20 for available.  20 for available.  21 for available.  21 for available.  22 for available.  23 for available.  24 for available.  25 for available.  26 for available.  27 for available.  28 for available.  29 for available.  20 for available.  20 for available.  21 for available.  21 for available.  22 for available.  23 for available.  24 for available.  25 for available.  26 for available.  27 for available.  28 for available.  29 for available.  20 for available.  20 for available.  20 for available.  21 for available.  21 for available.  22 for available.  23 for available.  24 for available.  25 for available.  26 for available.  27 for available.  28 for available.  29 for available.  20 for available.  20 for available.  20 for available.  20 for available.  21 for available.  22 for available.  23 for available.  24 for available.  25 for available.  26 for available.  27 for available.  28 for available.  29 for available.  20 for available.  20 for available.  20 for available.  20 for available.  21 for available.  21 for available.  22 for available.  23 for available.  24 for available.  25 for available.  26 for available.  27 for available.  27 for available.  28 for available.  28 for available.  29 for available.  20 for available.
