STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER
STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

(Name of Appropriator) (Address) (Town)

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Stock

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: 1957, on property

4. The amount of groundwater claimed (in miner's inches or gallons per minute):

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Windmill

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: 1957

8. The depth of water table:

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:

10. The estimated amount of groundwater withdrawn each year: 399,100

11. The log of formations encountered in the drilling of each well if available:

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

Signature of Owner: Date: December 12, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.

OFFICE OF STATE ENGINEER

Declaration of Vertical Groundwater Rights

(Under Chapter 237, Montana Session Laws, 1961)

STATE ENGINEER

E. F. Fox

1109 Dolphin Dr. Biltmore

County of

State of MONTANA

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1966, as follows:

1. Name of Appropiator

2. The beneficial use on which the claim is based. Future use

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. Be use at this time

4. The amount of groundwater claimed (in inches or gallons per minute). All water under my land as used

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. None now

6. The location of each well or other means of withdrawal. None drilled

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. Not now

8. The depth of water table. Refer to your records

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. None drilled

10. The estimated amount of groundwater withdrawn each year. To be determined by requirements

11. The log of formations encountered in the drilling of each well if available. None

12. Such other information of a similar nature as may be useful in carrying out the policy of the Act, including reference to book and page of any county record. None

Signature of Owner

Date

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the School of Mines and quadruplicate for the Appropirator.

Notice of Completion of Groundwater Appropriation by Means of Well
(Under Chapter 237, Montana Session Laws, 1961)

Owner: John Monroe
Address: Watertown
Driller: HO Sando
Address: Beach

Date of Notice of Appropriation of Groundwater: 
Date well started: 20 January 1964
Date Completed: 21 April 1964

Type of Well: Drilled
Equipment Used: Rotary or Drilled

Water Use: Domestic □ Municipal □ Other □ Irrigation □
Industrial □ Drainage □ Stock □

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which water rises in the well.

Static Water Level for non-flowing Well: 90 feet.
Shut-in Pressure for Flowing Well: 140 feet.
Pumping Water Level: 140 feet at 5 gal. per minute.
Discharge in gal. per min. of flowing well: 40
How Tested: Pump Test
Length of Test: 
Remarks: (Gravel packing, cementing, packers, type of shutoff, location of place of use of groundwater if not at well, and any other similar pertinent information, including number of acres irrigated, if used for irrigation)

Indicate location of well and place of use, if possible. Each small square represents 10 acres.

Driller's License Number: 91
Driller's Signature: Harold Sando

This form to be prepared by driller, and three copies to be filed by the owner with the County Clerk and Recorder in the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology and quadruplicate for the Appropriator.

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

1. JOHN S. MARCINIAK of WIBAUX

County of WIBAUX State of MONTANA
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: LIVE STOCK WATER

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: 1960 to nearest

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 20 gals per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal:
PUMP with electric engine

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: COMMENCEMENT DATE: 12-12-1962 COMPLETION DATE: 12-30-1962

8. The depth of water table: 20 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater:

10. The estimated amount of groundwater withdrawn each year: 50,000 gals

11. The log of formations encountered in the drilling of each well if available: "V": "V"

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

Signature of Owner: JOHN S. MARCINIAK

County of WIBAUX
(State of MONTANA)

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Livestock water.

3. Date or approximate date of earliest beneficial use, and how continuing the use has been: 1949 - continued until the present time.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): 1 gal. per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof:

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Flowing spring through plastic pipe.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: Last fall, 1949, pipe with plastic pipe in 1957.

8. The depth of water table: Water flows from coal bed near surface.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: 100 feet 75 feet plastic pipe, coal bed, water tank.

10. The estimated amount of groundwater withdrawn each year: 876,000 gal.

11. The log of formations encountered in the drilling of each well if available: Coal vein.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

Signature of Owner:

Date: Dec. 20, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.
Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

James Eldridge, of Wibaux, County of Wibaux, State of Montana,
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based.

   For watering livestock.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. This spring has been in use every day since the month of August 1958.

4. The amount of groundwater claimed (in miner's inches or gallons per minute). One (1) gallon per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. Not used for irrigation.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal.

   This is a flowing spring.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. The construction on this spring was started in August of 1958 and completed in August of 1958.

8. The depth of water table. About ten feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. This spring has a pit about eight (8) feet deep and a diameter of about five (5) feet and has a natural flow through a one inch pipe.

10. The estimated amount of groundwater withdrawn each year. 500,000 gallons per year.

11. The log of formations encountered in the drilling of each well if available. The formation in the pit of this spring is almost solid lignite coal.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. No useful information in county records to my knowledge.

Signature of Owner: James Eldridge
Date: Dec. 3, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology, and Quadruplicate for the Appropriator.
STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

Janes Eldridge, of Wibaux, have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Domestic and for livestock.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: 1916 — This well has been in use every day since the month of June, 1916.

4. The amount of groundwater claimed (in miner's inches or gallons per minute): Three (.3) gallon per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof: Not used for irrigation.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: The water from this well is withdrawn by a pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: The construction of this well was started in June of 1916 and completed in July of 1916.

8. The depth of water table: 22 feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: This well was dug by hand and is about five feet in diameter and twenty-two foot deep, with a stone capping.

10. The estimated amount of groundwater withdrawn each year: 150,000 gallons per year.

11. The log of formations encountered in the drilling of each well if available: Clay, sandstone, and coal.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record: No useful information in county records to my knowledge.

Signature of Owner: Jane Eldridge
Date: Dec. 3, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology, and quadruplicate for the Appropriator.

(Under Chapter 237, Montana Session Laws, 1961)

1. H. F. Patterson, of Helena, State of Montana have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based: Home use, Irrigation

3. Date or approximate date of earliest beneficial use; and how continuous the use has been: 1942

4. The amount of groundwater claimed (in miner's inches or gallons per minute): approx. 35 gal per month

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal: Well

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater: 1949

8. The depth of water table: Approx. 100 ft

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater: No data

10. The estimated amount of groundwater withdrawn each year: Sufficient for 40 acre of land

11. The log of formations encountered in the drilling of each well if available: Sand & Some Coal

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record:

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; Duples to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology.
Notice of Completion of Groundwater Appropriation
Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater: 1961
Owner: Harry B. Bogger
Address: Wibaux, Mont.
Contractor (if any): None
Address of Contractor: None
Date Started: 6/1/57
Date Completed: 6/1/57

Describe means of obtaining groundwater without a well, "as by sub-irrigation and other natural processes." Include depth to water when applicable.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent, estimate approximate lengths of periods of use.

NE 1/4 Sec. 9 T12 R69-page 57

Indicate point of appropriation and place of use, if possible.

Signature of Owner: Harry B. Bogger
Date: 6/30/1963

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology and quadruplicate for the Appropriator.

25439
Notice of Completion of Groundwater Appropriation by Means of Well
(Under Chapter 237, Montana Session Laws, 1961)

Owner: M. B. J. 
Address: Wibaux

Driller: W. B. McDermott 
Address: Beach W. O.

Date of Notice of Appropriation of Groundwater: 18 Okt. 65
Date well started: 12 Okt. 65 
Date Completed: 20 Okt. 65

Type of well: Drilled
Equipment Used: Churn, drill, rotary or drilled

Water Use: Domestic □ Municipal □ Other □ Irrigation □ Industrial □ Drainage □ Stock □

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which water rises in the well.

Static Water Level for non-flowing Well: 60 feet.
Shut-in Pressure for Flowing Well:
Pumping Water Level: 90 feet at 20 gal. per minute.
Discharge in gal. per min. of flowing well:
How Tested: Length of Test: 2.60

Remarks: (Gravel packing, cementing, packers, type of shutoff, location of place of use of groundwater if not at well, and any other similar pertinent information, including number of acres irrigated, if used for irrigation)

Driller's License Number
Driller's Signature

This form to be prepared by driller, and three copies to be filed by the owner with the County Clerk and Recorder in the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; triplicate to the Montana Bureau of Mines and Geology and quadruplicate for the Appropriator. 39959

I. Name of Approprietor

 of

(Name of Approprietor) (Address) (Town)

County of State of

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

2. The beneficial use on which the claim is based

Stock water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been

During the year 1930

4. The amount of groundwater claimed (in miner’s inches or gallons per minute)

10 gallons per minute, pump permitted to operate intermittently

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof

No irrigation

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal

Drilled well with a 6 inch casing 100 feet deep, operated with a pump attached to the windmill

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater

During the year 1930

8. The depth of water table

150 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater

This is a drilled well with a 6 inch casing 100 feet deep, operated with a pump attached to the windmill

10. The estimated amount of groundwater withdrawn each year

Approximately 50,000 gallons per year

11. The log of formations encountered in the drilling of each well if available

No log formations in the drilling of this well are available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record
