STATE ENGINEER

1. C. R. Horton, of Custer
(Name of Appropriator) (Address) (Town)

County of Yellowstone State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

S. E. 1/4 Sec. 17 T7N R32E

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based Stock water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been 1949
Six month a year.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) One and 1/2 gal.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof No irrigation

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal Electric pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater drilled during the month of Mar. 1949

8. The depth of water table 300 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater Six inch casing, Depth 420 ft.

10. The estimated amount of groundwater withdrawn each year

11. The log of formations encountered in the drilling of each well if available No log of formation

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

Signature of Owner C. R. Horton

Date Nov 24 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Appropriator.

1. C. R. Horton, of Custer
(Name of Appropriator) (Address) (Town)
County of Yellowstone State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SE 1/4 Sec 20 T7N R32E
Indicate point of appropriation
and place of use, if possible.
Each small square represents 10
acres.

2. The beneficial use on which the claim is based
Home use and stock water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been 1945
They All year long.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) Seven gall.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof
The irrigation

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal
Electric pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater
Drilled during the month of Sept. 1945.

8. The depth of water table 25 ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater
Six inch casing. Depth 115 ft.

10. The estimated amount of groundwater withdrawn each year 200,000 gal.

11. The log of formations encountered in the drilling of each well if available
No log on formation

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

(Name of Appropriator) (Address) (Town)
County of Yellowstone State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

NW 1/4 Sec. 22 T. 7N R. 32E

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based for house & stock use
3. Date or approximate date of earliest beneficial use; and how continuous the use has been March 22, 1947 and continuous since that date
4. The amount of groundwater claimed (in miner's inches or gallons per minute) 3 gallons per minute
5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof not applicable
6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal submersible pump with electrical power

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater Commencement in March 1947 & completion on March 22, 1947
8. The depth of water table 85 feet from top - water raises 139 feet in well
9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater drilled well with 6 3/4 inch bit - 224 feet deep - 1 inch galvanized casing - 1 1/2" pipe on submersible pump - hit water at 70 feet & at 215 feet
10. The estimated amount of groundwater withdrawn each year 2,576,800 gallons
11. The log of formations encountered in the drilling of each well if available 0-3 dirt, 3-5 sand rock, gravel, 5-11 yellow sand, 11-25 hd yellow sand rock, 25-55 soft yellow sand rock, 56-62 white sand stone, 62-68 gray sand shale, 68-83 blue sand stone, 82-117 gray slick shale, 117-159 blue sand stone, 159-168 blue sticky shale, 168-179 hd white sand rock, 179-212 gray sandy shale, 212-224 white sand stone - 224-224 gray sticky shale
12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record not applicable

Signature of Owner Horace O. White

Date June 30, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Notice of Completion of Groundwater Appropriation by Means of Well

(Under Chapter 237, Montana Session Laws, 1961)

Owner Horace O. White Address Custer, Montana

Driller Horace O. White Address Custer, Montana

Date of Notice of Appropriation of Groundwater Dec., 1963

Date well started Sept. 1961 Date Completed Oct. 1, 1961

Type of well hand dug Equipment Used shovels
(dug, driven, bored or drilled) (Churn, drill, rotary or other)

Water Use: Domestic Municipal Other Irrigation
Industrial Drainage Stock

Indicate on the diagram the character and thickness of the different strata met with in drilling, such as soil, clay, shale, gravel, rock or sand, etc. Show depth at which water is encountered, thickness and character of water-bearing strata and height to which water rises in the well.

Size of Drilled Hole	Size and Weight of Casing	From (Feet)	To (Feet)	PERFORATIONS		
				Kind Size	From (Feet)	To (Feet)
8 feet diameter	8 feet 12 gauge	0	12	No perforations		
				water comes in from gravel underneath		

Static Water Level for non-flowing Well 6 feet.

Shut-in Pressure for Flowing Well not applicable

Pumping Water Level 6 feet at 20 gal. per minute.

Discharge in gal. per min. of flowing well not applicable

How Tested pumped Length of Test 2 hr.

Remarks: (Gravel packing, cementing, packers, type of shutoff, location of place of use of groundwater if not at well, and any other similar pertinent information, including number of

acres irrigated, if used for irrigation) water comes

near to surface in the bed of

creek where well is dug.

NW 1/4 Sec. 22 T. 7N R. 32E

Indicate location of well and place of use, if possible. Each small square represents 10 acres.

Show exact depth of bottom.

Horace O. White
Driller's License Number

Driller's Signature

This form to be prepared by driller, and three copies to be filed by the owner with the County Clerk and Recorder in the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.

STATE OF MONTANA
ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Declaration of Vested Groundwater Rights
(Under Chapter 237, Montana Session Laws, 1961)

RECEIVED
DEC 23 1963

STATE ENGINEER

1. C. R. Horton, of Custer (Address) Custer (Town)
(Name of Appropriator)
County of Yellowstone State of Montana
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

NW 1/4 Sec. 30T. 32R. 32
Indicate point of appropriation
and place of use, if possible.
Each small square represents 10
acres.

2. The beneficial use on which the claim is based
Stock water.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been 1946
Six month of year.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) Four gal.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof
No irrigation

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal
Electric pump.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater Drilled during the month of April 1946.

8. The depth of water table 140ft.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater
Six inch casing. Depth 260 ft.

10. The estimated amount of groundwater withdrawn each year 140,000 gal.

11. The log of formations encountered in the drilling of each well if available
No log on formation

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record

Signature of Owner C. R. Horton
Date Dec 20, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Appropriator.

(Under Chapter 21, Montana Session Laws, 1965)

1. Willard W. Wilson of Custer
 (Name of Appropriator) (Address) (Town)

County of Yellowstone State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SE 1/4 Sec. 31 T7N R32E

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based. livestock water

3. Date or approximate date of earliest beneficial use; and how continuous the use has been. unknown, but continuously used 12 months of the year

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 4 gallons per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof. not used for irrigation

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal. windmill

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater. unknown

8. The depth of water table. 50 feet

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater. 2 inch cylinder, 180 feet deep, drawn by windmill

10. The estimated amount of groundwater withdrawn each year. 60,000 gallons

11. The log of formations encountered in the drilling of each well if available. not available

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. none

Signature of Owner: Willard W. Wilson

Date: December 27, 1965

(Under Chapter 21, Montana Session Laws, 1965)

1. I, Serena Louise Pfister, a widow, of Section 12, T 5 N, R 27 E, M. P. M.
(Name of Appropriator) (Address) (Town) None
County of Yellowstone State of Montana (P.O. Box 1282, Billings, Mont.)
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SE 1/4, NE 1/4 Sec. 27, T 6N, R. 27E

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

Area very rough and point of appropriation rather uncertain.

- 2. The beneficial use on which the claim is based Stock watering use
- 3. Date or approximate date of earliest beneficial use; and how continuous the use has been at least prior to 1942; use continuous to date.
- 4. The amount of groundwater claimed (in miner's inches or gallons per minute) approximately 1 gallon per one minute and 35 seconds.
- 5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof NONE
- 6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal spring box and pipe set approximately 3 feet in the ground.

- 7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater date of original construction known only to be prior to 1942; new spring box and pipe placed in spring in October 1965.
- 8. The depth of water table approximately 18 to 24 inches below the surface.
- 9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater galvanized culvert set approximately 3 feet below surface to function as spring box.
Water is piped 100 feet to a 10 foot diameter metal tank with cement bottom, all new in 1965
- 10. The estimated amount of groundwater withdrawn each year Unknown.
- 11. The log of formations encountered in the drilling of each well if available None
- 12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record None to my knowledge.

Notice of Completion of Groundwater Appropriation
Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater Prior to 1942

Owner Serena Louise Pfister Address P.O. Box 1282

Billings, Mont.

Contractor (if any) None

Address of Contractor In 1965 under S.C.S. supervision
spring completely reworked by
ranch owners.

Date Started 1965 Date Completed 1965

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable. Appropriation consists of a

galvanized steel cylindrical spring box set in the
ground approximately 3 feet, with water flowing down
hill out of spring box. Metal pipe, about 100 feet,
to 10 foot steel watering tank with concrete bottom.
Water rises in spring box under it's own pressure.

Depth of water table approximately 18 to 24 inches
below surface.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent

estimate approximate lengths of periods of use. Spring runs
approximately one gallon per 1 minute and 35 seconds,
more or less, depending upon the wetness or dryness of
season; however spring runs year round and it's full
flow year round is appropriated and used.
The method of measuring flow consisted of timing
the amount of flow required to fill a container of
known volume within a given time.

SE 1/4 Sec. 27 T6N R27E
Indicate point of appropriation and place of use, if possible. Area very rough and point of appropriation rather uncertain.

Signature of Owner Serena Louise Pfister

Date Nov. 30, 1970

This form to be prepared by contractor (if any), otherwise by the owner.

Notice of Completion of Groundwater Appropriation
Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater... Spring acquired 1949

Owner... Sarena Louise Pfister Address... P. O. Box 1202
Billings, Montana

Contractor (if any) L. R. Joiner built earthen dam at
spring site

Address of Contractor Billings, Montana

Date Started 1954 Date Completed 1954
Earthen dam

Describe means of obtaining groundwater without a well "as by
sub-irrigation and other natural processes". Include depth to
water when applicable.

The water in dam is a combination of spring fed
and surface runoff, said water being a
combination of spring fed water in bottom of
dam with surface runoff in an unknown ratio.

See below,

Quantity of water developed and used with explanation of method
used to measure or estimate such amount. If use is intermittent

estimate approximate lengths of periods of use.

Pond surface Acres x maximum water depth x .4
equals Acre feet

.33 surface Acres x 20 Feet water x .4 gives
2.64 Acre Feet S. C. S.

The storage of water from submerged spring plus
surface runoff is stored year round and volume
stored varies with the seasons. Summer range.

Signature of Owner Sarena Louise Pfister

Date Nov 30, 1970

23-1/4 SW Sec. 23 T. 6N R. 27E

ADMINISTRATOR OF GROUNDWATER CODE
OFFICE OF STATE ENGINEER

Notice of Completion of Groundwater Appropriation
Without Well

(Under Chapter 237 Montana Session Laws, 1961)

Date of Appropriation of Groundwater 1942
Spring box 1962

Owner Serena Louise Pfister Address P.O. Box 1282

Contractor (if any) None Billings, Mont.

Address of Contractor None

Date Started 1962 Date Completed 1962

Describe means of obtaining groundwater without a well "as by sub-irrigation and other natural processes". Include depth to water when applicable.

Depth of water at spring box several feet.
Spring box is 6' x 4' x 6 feet in depth, built
of 2x10 lumber, set about 4' feet in ground.
Some excavation below box and at end of excavation
about 240 feet there is an earthen dam, probably
3 feet in height. Dam about 15 feet wide across
draw.

Quantity of water developed and used with explanation of method used to measure or estimate such amount. If use is intermittent

estimate approximate lengths of periods of use.

NE 24 Sec. 24 T. 6 N R. 27 E

Indicate point of appropriation and place of use, if possible.
Point of appropriation marked as accurately as possible above.

Cannot measure or estimate amount of water.
This spring setup has water in the spring and
summer for livestock use.
Water apparently rises by it's own pressure.

Signature of Owner Serena Louise Pfister

Date Dec. 7, 1970

This form to be prepared by contractor (if any), otherwise by the owner.

Three copies of this notice are to be filed with the County Clerk and Recorder of the county in which the works are located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the Montana Bureau of Mines and Geology and Quadruplicate for the Appropriator.

Declaration of Vested Groundwater Rights

(Under Chapter 21, Montana Session Laws, 1965)

P. O. Box 1282

1. Sarena Louise Pfister of Sec. 12, T5 N, R 27 E, Billings, Mont.
(Name of Appropriator) (Address) (Town)
County of Yellowstone State of Montana

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SE 1/4 Sec. 36, T. 6 N. R. 27 E.

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres. **Cannot indicate point of appropriation other than in the southeast corner of Section 36.**

2. The beneficial use on which the claim is based is
stock water use.

3. Date or approximate date of earliest beneficial use; and how continuous the use has been
Earliest use 1964 and has been used every
year since.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) six gallons per minute

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof
None.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal
A windmill. Located in SE 1/4 of Section 36
T. 6 N, R. 27 E.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater
Commenced in 1964 and completed in 1964.

8. The depth of water table. Do not know.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater
A drilled cased well, depth 180 feet.
Other specifications not known.

10. The estimated amount of groundwater withdrawn each year. Cannot estimate.

11. The log of formations encountered in the drilling of each well if available. Not available.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. None to my knowledge.

Signature of Owner Sarena Louise Pfister

Date Nov. 30, 1970

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.
